Take my hand and follow me
There's something you need to see
Picture of this world of mine
Some will fly and some will die

This old coat is heavy
Singing "weary shoulders blues"
Take a breath and darkness cease
Now start this melody

Let go fall down
The world keeps spinning round
Fall out feel free it's all there anyhow
Catch on stand ground
'cause merry will be going, going round

I have searched I've yet to find
Melodies with a brand new sound
My heart is free but a senseless mind
Is fighting all that's not safe and sound
If my prejudice was blind
Imagine all my heart would find

This old road is messy
Tell me where is peace
Take a breath and darkness cease
Now start this melody

Let go fall down
The world keeps spinning round
Fall out feel free it's all there anyhow
Catch on stand ground
'cause merry will be going going round
